OFFICIAL DOCUMENTS.

-What may be termed the second inaugurated by the learned Chief Justice regarding the above subject: Sir John Smale, in his letter to the Colonial Secretary of the 30th May last, asks for the institution of proceedings against Lau Pak-cheong, who was in possession of a child for the detention of whom (under Sects. 50 and 51 of Ord. 4 of 1865) two female go-betweens had been sale of whom had brought another go-Per Arrateon Apoor, from Calcutta, &c., between into trouble), His Lordship asked that proceedings might be taken. "To let these two offenders go unprosecuted and to punish such poor miserable creatures," writes Sir John, "exposes the Court to the tempt of the community and tends to destroy all respect for the Administration of Justice in the Chinese the Chief Justice suggests that the trials Justice's remarks !should take place before Mr Justice Francis.-In his Minute upon this letter

Newchwang, upon Sects 50 and 51 of Ord. 4 of 1860, as well as the considerations of policy in criminal matters, are fully gone into. Apart from the fact that "adopters" of children had been decided by Mr Phillippo to be in loco parentis of the child so adopted, it was deemed that to prosecute these purchasers or adopters after having made them witnesses would appear to be a breach of faith. H. E. the Administrator thereupon declines to accede to the request of the Chief Justice to prosecute, adding that the final decision could be left until Governor Hennessy's

On the 8th October last, the Chief Justice again draws attention to the subject of domestic servitude, and to his elaborate manifesto thereon, saying that he is "at the service of H. E. the Governor as to the serious questions that may arise." This letter is remitted by the Governor to Acting Attorney General Russell for the observations of that officer. These, however, are very brief, being merely-"Read;" while His Excellency returns his best thanks to the Chief Justice "for placing his great

vernor's service in this matter." On the 20th October of last year, the Chief Justice once more addresses the

Colonial Secretary as follows:--I avail myself of the opportunity on recurring to this subject of informing His Excellency the Governor directly that I daily feel more reason to believe that the practice of kidnapping for purposes other than the coolin traffic has of late been alarmingly on the increase in this Colony. His Excellency will have noted the cases already tried in the Police and Supreme Monte Video, Paraguay, and Uruguay Courts. I may now add that the present sessions for October furnish two cases of the kind for trial before me, and fuoline me to think that "brokers of men." as a girl eleven years of age designates them, form among the various classes of brokers in this Colony a well known special class, though, like gaming house keepers, the law

ignores them. I believe that mothers have even kopt their daughters from going to school for fear of their being hidnapped. I cannot understand why such classes should, as classes, increase in this Colony at all, unless it be that (in addition to the Chinese demand for domestic servants and brothels) there be an increased foreign element increasing the demand. I fear that a high premium is obtained by persons who kidnap girls in the high prices which they realize on sale to foreigners as kept ance Co., Limited, closed from this date women. No one can walk through some of the bye-streets in this Colony without seeing well dressed Ohina girls in great numbers whose occupations are self proclaimed, or pass those strests, or go into the schools in this Colony, without counting beautiful children by the hundred whose Eurasian origin is self declared. If the Government would enquire into the present condition of these classes, and, still more, into what has become of these women and their children of the past, I be ieve that it will be found that in the great majority of cases the women have sunk into misery, and that of the children the girls that have survived have been sold to

not within the province of the Judge, it is for the Statesman only to decide. In the meantime, and apart from that large and important question, I would suggest that it would be desirable that the police should be instructed to bring every person known to hold a purchased (so called) servant before the Magistrate to be dealt with mildly; and, moreover, that all placards in Chinese should be interpreted to the head department in the police. Such series of despatches deals with the placards advertising rewards for runaway more recent and more public movement purchased slaves as were produced in court would then cease, and other announcements

prove to be, as I incline to think, obnoxious. I am not so blind to consequences as not to see that an attempt to interfere with the present system will entail public outlay to provide temporarily for the victims of that system till better positions our be secured for them ; but if prisons up to the wants of a community are provided of necessity, it would be of equal duty to provide for

In all these cases

it can only be indirectly. A kidnapped girl sold to a foreigner would be sure to get kidnappers into trouble. I am therefore inclined to think that the high prices paid by foreigners for kept women have no appreciable influence in the way of increasing the demand supplied by kidnapping. In short, I believe that kidnapping is caused almost entirely by the demand for Chinese girls outside the colony of Hongkong, and is fostered by that defecof the law which allows a ship to take 20 female passengers without their coming at all under the cognizance of the Emigration

they are also, as a rule, better off than the concubines of Chinese well-to-do merchants; they are generally provided for, by the foreigners who kent them, when the connection is severed, and at any rate these women are as a rule thrifty, and always manage to save money which they invest in Bank deposits, also in house property, but principally in buying female infants whom they rear for sale to or concubinage with foreigners, by which they generally gain a competency in about 10 years. The children of these women are invari-

ably sent to school. In fact these women understand the value of education and prize it far more than respectable Chinese women do. The boys are invariably sent to the Government Central School, where they generally distinguish themselves, and as a rule these boys obtain good situations in Hongkong, in the open ports and abroad. The girls crowd into the schools kept by Missionary Societies. These children are generally provided with a small patrimony by their putative fathers. They dress almost invariably in Chinese costume and adopt Chinese customs, unless they are taken up by ill-advised agents of foreign expressed in Chinese by 可失不經莫 charity. May it please Your Excellency,-The Masters and pupils of the Government Schools of this Colony, outside the Central School, are here assembled to-day to receive the rewards and prizes allotted to them for the year 1879. The rewards to be given to the Masters are grants of \$25 and \$15 which have been sanctioned, sin a the year 1877, by the Secretary of State for annual distribution among those Masters of Tovernment Schools whose schools are classed for the year as "very good" or as "good" rispectively. I found one school shut up and the other without scholars, at a time when both ought to have been at work.

His Excellency the Governor then distributed the rewards to the teachers, and, after putting the pupils who had been learning English through a little viva voce examination in spelling and reading, he

distributed the prizes to the boys. The Governor then rose and addressed the meeting. He began by saying that he was glad to have the opportunity of meeting here the representatives of the 29 outside Schools, 26 masters of which he understood to be present. He was especially glad to see such a large assembly of schoolboys, more than one hundred of whom had been learning English, whilst all, or nearly all, of theas boys were born in this Colony. and therefore, as born under the English flag, British subjects. No doubt they were all aware that, apart from the moral effects of education on habit and character, the high-road to worldly prosperity, to social rank and position in this Colony lies in the direction of English knowledge. He was glad, therefore, to be able to say that in addition to the four English Government Schools, outside—the Central School, at present existing in the Colony, two more would be opened for English teaching after the Chinese New Year. He hoped the Chinese residents of the Colony would appreciate the advantages offered to them by these Government Schools, as nothing would planse him more than to see from year to year stronger Anglo-Chinese Community rising up in this Colony, Chinese in manners and customs, but English in law-abiding devotion to Her Majesty the Queen under whose rule they were living here in security and comfort. He was aware that much was to be learned in Chinese books, that was not pressed so strongly in English literature, as, for instance, filial piety, gentleness of conduct, and the formal restrictions of social etiquette. there was no difficulty in continuing these espons of a Chinese education with thorough study of the English language. They might notice the example ast them by the Chinese residents of another British Colony not far off, Singapore and the Straits Settlements, where thousands of Chinese, without forsaking their Chinese customs and manners, made the English language their own. There was no difficulty as great as to prevent the acquisition of a good knowledge of English by any Chinese in the Colony who were really anxious to learn English, and no prize of material prosperity, social rank, or office so high that it was not open to a British thorough knowledge of hinglish. He him- Gazette says :self never made any distinction in giving away an office except that he sought for the man best fitted by education, talent and character, be be of Chinese or foreign extraction. Let the Masters therefore do their duty by those willing and anxious to be taught, and let the purils take heart, master the difficulties of the Euglish language and strive to gain for themselves a worthy position in this Anglo-Chinese com munity of Hongkong, which, he trusted, would always be thoroughly Chinese in family feeling and character, in sobriety and industry, and a oredit to Chins, whilst being obedient to English law and staunch in sincere loyalty to Her Majesty the Queen Empresa. He concluded by saying that he would endeavour occasionally to accompany Dr Eitel in his inspection of the Schools, and by wishing to all, Masters and pupils, a Happy New Year.

B. M.'s Consular Court on the 26th and

27th instant before Mr. Consul Sinclair.-Mesers Odell and Morris acting as Assessors. Mr. H. G. Robertson appeared as Attorney for the Plaintiff, and Mr. Hannen, Barrister of Shanghal, as Counsel for Defendant. The Plaintiff lately employed as Compradore to the firm of Mr. William McKenzie Bradley, sued the Defendant, Mr. J. G. Hodgson, lately acting Agent for the Hongkong and Shanghai Banking Corporation at this port, for the recovery of two dividend warrants, or receipts for bonus and dividend accruing President; H. G. Thomsett, Esq., R.N., on sha es in the Union Insurance Society of Canton-said shares having been previously hypothecated to the Hongkong and Shanghai Bank as collateral security against an advance made by the Bank to Mr Bradley, at that time the reputed holder of the shares. These dividend warrants or receipts were made payable at the offices of the Hongkong and Shanghai Bank in Foochow-on endorsement by the registered owner of the shares to which they related and it was shown, that on or about the 16th May last Mr Bradley, in whose names the shares then stood in the books 12th Dec., while lying at anchor at Cebu, of the Insurance Company, transferred by there was a moderate wind W.N.W., with | endorsement the warrants or receipts to his Compradore, the plaintiff, in part payment of the sums of \$36,015.65 then alleged to be due by Mr Bradley to the plaintiff. The warrants or receipts were for the sum of \$9,926.14. The plaintiff's shroff presented these warrants or receipts at the Bank for payment on or about the 16th May last; but defendant refused such payment to plaintiff, and retained the warrants :- passing the amount, however, to credit of Mr Bradley's account with the Bank. This course was adopted in consequence of instructions received from the head office of the Bank, in regard to which the defendant had meviously given due notice in writing to Mr Bradley, the Plaintiff's employer. Subsequently,—Mr Bradley having in the meantime been declared a bankrupt—the warrants or receipts in question were voluntarily handed by defendant into the custody of of Her Majesty's Court in Foochow, there to await a final order of the Court as to their legal disposition, and they were ultimately paid over to the bankrupt estate of Mr Bradley. The Plaintiff was examined at considerable length, and gross-examined by Defendant's Counsel; and the Agent for the Union Insurance Company, and the Trustee of the bankrupt estate were also called as witnesses for the Plaintiff. The examination and cross examination of Defendant occupied nearly the whole o Tue day : the Court stating at the close of the hearing that Judgment would be delivered on the 2nd proximo.

THE CHINA REVIEW.

THE widely-expressed regret at the dis-continuance of Notes & Queries on China and Japan, has induced the publishers of this journal to issue a publication similar in object and style, but slightly modified in certain details.

THE CHINA REVIEW, or Notes and Queries on the Far East, is issued at intervals of two months, each number containing about 60 octavo pages, occasionally illustrated with lithographs, photographs, woodcuts, &c., should the papers published demand, and the circulation justify, such

extra matter. The subscription is fixed at \$6.50 postage

The subscription is fixed at \$6.50 postage paid, per annum, payable by non-residents in Hongkong half-yearly in advance.

The publication includes papers original and selected upon the Arts and Sciences, Ethnology, Folklore, Geography, History-Literature, Mythology, Manners and Cus, toms, Natural History, Religion, &c., &c., of China, Japan, Mongolia, Tibet, the Eastern Archipelego and the "Far East" generally. A more detailed list of subjects upon which contributions are especially invited is incorporated with each number, Original contributions in Chinese, Latins French, German, Spanish, Italian or Por-French, German, Spanish, Italian or Portuguese, are admissible. Endeavour. are made to present a resume in each number of the contents of the most recent works bearing on Chinese matters. Great attention is also paid to the Review

Notes and Replies are classified toge-ther as "Notes" (head references being given, when furnished, to previous Notes or Queries), as are also those queries which though asking for information, furnish new or unpublished details concerning the matter in hand. It is desirable to make the Queries proper as brief and as much to the point as possible.

The China Review for July and August, 1875, is at hand. It says that forty-two essays were sent in to compete for the best paper on the advantages of Christianity for the development of a State. All our learned societies should subscribe to this scholarly and enterprising Review. . It is a sixty paged, bi-monthly, repertory of what scho-lars are ascertaining about China. The lecture on Chinese Poetry in this volume is slone worth the price of the Review. Address China Review, Hongkong.-Northern Christian Advocate (U.S.)

Trübner's Oriental Record contains the following notice of the China Review !-- "This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature, antiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Uhinese Customs' corps, and the missionary body, among whom a high degree of Chinose scholarship is now assiduously oultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in con-nexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to Ohina and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predemay receive the support necessary to insure its continuance. The publication is intend. ed to appear every two months, and will form a substantial octavo magazine,

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast porta.

It is the first Chinese Newspaper ever Perissued under purely native direction. The Ri chief support of the paper is of course Si derived from the native community, Vi amongst whom also are to be found the guarantors and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,— from Australia, California, Singapore, Henang, Salgon, and other places frequented by the Chinese, — consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertisers are therefore unusually great, and the foreign community generally will find Pow it to their interest to avail themselves of Sir.

The field open to a paper of this descrip Tung tion—conducted by native efforts, but Whi progressive and anti-obstructive in tonein almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid that can be given to it by foreigners. Like English journals it contains Editorials with Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN, China Mail Office.
